BIOSTIMULANT

Cibochem®

TECHNICAL DATA SHEET

01 Description

FERTILITA AMINO 80 is a simple nitrogenous fertilizer that promotes crop development by stimulating key physiological functions in plants that require high energy expenditure, such as growth, development, flowering, and fruit filling. FERTILITA AMINO 80 provides energy to the crop to quickly overcome stress situations caused by lack of water or high temperatures. In addition, it is suitable for organic agriculture.

02 Composition

Substance Name	% Content
Total Nitrogen (N)	13%
Ammoniacal Nitrogen	1.63%
Water Soluble Nitrogen	11.34%
Water Insoluble Nitrogen	0.03%

**03**

Functions

- Promotes tolerance to biotic and/or abiotic stress situations.
- Stimulates the growth and development of vegetative.

Submissions

**9.91 lb****2.83 lb****04**

Mode of use

Foliar applications: 7 to 15 ounces per acre during the postplant or posttransplant stages, vegetative development, prebloom, and fruit set.

Fertigation/Drench: 14 ounces per acre after planting or transplanting with application intervals of 10-15 days. Continue with the applications every 20-30 days in the stage of production and fruit filling.

For additional application tips visit our website.

**06**

Storage

After opening, keep the package closed as it can absorb moisture and compact. Store in a cool, dry place out of the reach of children and pets. For best results, use before the expiration date printed on each bag.

**07**

Compatibility

FERTILITA AMINO 80 is compatible with most insecticides, fungicides and fertilizers. If interaction with other products is unknown, a compatibility test is recommended..
